Celebrating A Milestone...

WITH A VAN FOR YOU

15 Years Ago...

New facilities established in 2004 by Bruno Caruso, Keir Smith and Steve Caruso, the companies 3 directors share over 70 years of industry experience. Their skill and knowledge of the industry and allowing Franklin to maintain the reputation as one of Australia's leading caravan companies.

"We are passionate about design and construction and we work closely with designers and suppliers to ensure that our customers are first to enjoy the benefits of innovations and technology in our caravans."

The All New... **G3**

Now A Milestone To Celebrate...

The owners are fully committed to the future growth of the company and the industry. Through continuous investment in technology and product development over the last 15 years, the directors have established six state of the art manufacturing facilities, ensuring that the reputation of the brand and the brand quality, along with design innovation, remains unsurpassed.

A Milestone to celebrate, 15 years of the Franklin 'G' series. November 2009 saw the birth of the much-lauded Franklin G1 marking 5 Years of manufacturing Franklin's from its new base. The release of the Franklin G2 in 2014 5 years later, ticked the second major milestone. Both were a runaway success.

To mark this *15 Year Milestone* indelibly, the company has released the G3 Anniversary Model. Built to the same standards, in keeping with Franklin's history and customers' expectations, but stamping an identity of its own, making it unique. **The 15 Year Milestone Model, The Franklin G3 Anniversary- Like no other before**
